

Pathfinder: Wrath of the Righteous - IE Complete Endgame Builds

This is the compact, actionable build file for **Inevitable Excess (IE)**. It keeps one strongest finished build per system, in score order. The scores are internal Unfair/min-max comparisons, not official ratings.

IE has two separate entry modes:

- **Mythic entry:** character level 20 with Mythic Rank 10. The five builds below are written for this mode.
- **Fresh Legend entry:** select Legend at MR3 and reach character level 40. A fresh Legend cannot later gain Angel, Lich or Trickster path features. The full ranked builds below therefore do not pretend that those paths are available in fresh Legend.

The guide does not use the main-campaign sequence where a character starts as Angel, Lich or Trickster and changes to Legend at MR8. For the fresh Legend fallback, use Kinetic Sharpshooter 20 / Mutation Warrior 20 or Inciter Skald 20 / Mutation Warrior 20; those are compatibility plans, not additional ranked variants.

Ranking

Score	Tier	One retained end state	Finished class/path	Main job
9.9	SS	Angel Oracle	Seeker Oracle 16 / Scaled Fist Monk 1 / Paladin 2 / Hellknight 1 / Angel MR10	Merged divine casting, buffs, healing and bolts
9.8	SS	Lich caster	Stigmatized Witch 10 / Loremaster 9 / Crossblooded Sorcerer 1 / Lich MR10	Merged negative-energy casting and boss debuffs
9.7	SS	Kinetic Sharpshooter	Kinetic Sharpshooter 20 / Trickster MR10	Independent ranged finisher
9.7	SS	Trickster Sword Saint	Sword Saint 20 / Trickster MR10	Dimension Strike and critical full attacks
9.6	SS	Inciter Skald	Inciter Skald 20 / Trickster MR10	Party-wide melee multiplier and control

The lower-rated DLC archetype rows and duplicate Legend versions are omitted from this actionable file. They remain unnecessary when the goal is one strongest build per system.

Shared party shell

Slot	Chassis	What it supplies
1	The selected build below	Main damage, casting or party engine
2	Inciter Skald 20	Inspired Rage, Lethal Stance, Beast Totem, shared sneak dice and enemy pressure
3	Brown-Fur Transmuter 20	Share Transmutation, Greater Magic Weapon, Legendary Proportions, Haste and Echolocation
4	Cleric 20 or Oracle 20	Guarded Hearth, communal defenses, Death Ward, Freedom of Movement, Heal and dispels
5	Mutation Warrior 19 / Demonslayer Ranger 1	Mutagen, weapon training, Outflank and full-BAB melee damage
6	Witch 20, Kinetic Sharpshooter 20 or a second divine buffer	Hexes, ranged pressure, healing and condition removal

Use only one active rage song. Casters should decline Inspired Rage unless the current patch confirms that **Hit a Nerve** allows them to cast safely while the song is active.

1. Angel Oracle - 9.9/10 SS

Final build

Seeker Oracle 16 / Scaled Fist Monk 1 / Paladin 2 / Hellknight 1 / Angel MR10

This is the strongest all-purpose IE main: it combines very high Charisma defenses with a merged Angel spellbook, reliable healing, communal buffs and high-damage Angel bolts.

Creation

Field	Choice
Race	Aasimar (Angelkin)
Alignment	Lawful Good; required for the Paladin/Hellknight shell
Background	Pickpocket
Mystery	Nature
Curse	Hellbound
Deity	Sarenrae
Starting stats	STR 16, DEX 7, CON 14-16, INT 10, WIS 11, CHA 21
Level-ups	Put every normal increase into CHA (to 26)
Skills	Max Persuasion, Use Magic Device, Knowledge (Religion), Perception and Mobility 3

Nature's Whispers converts the important AC contribution to Charisma. Scaled Fist adds Charisma to AC, Paladin 2 supplies Divine Grace, and Hellknight 1 supplies Smite Chaos.

Class order and key choices

Character level	Class	Key choice
1	Seeker Oracle 1	Nature's Whispers; Improved Initiative
2	Scaled Fist Monk 1	Dodge
3-9	Seeker Oracle 2-8	Crane Style, Outflank, Power Attack, Wolf companion revelation and core metamagic
10	Paladin 1	Divine Grace
11-18	Seeker Oracle 9-16	Boon Companion, spell DC/penetration feats and final revelations
19	Hellknight 1	Smite Chaos; choose the lawful order that matches the character
20	Paladin 2	Second Paladin level and final Oracle package

Take **Improved Initiative**, **Dodge**, **Crane Style**, **Outflank**, **Power Attack**, **Boon Companion**, **Spell Focus: Conjuration**, **Greater Spell Focus: Conjuration**, **Shatter Defenses**, **Spell Penetration**, **Greater Spell Penetration**, **Bolster Spell**, **Extend Spell**, **Quicken Spell** and **Heighten Spell** as the core package. Use the Seeker bonus feat slots for Greataxe Weapon Focus/Greater Weapon Focus and the companion prerequisites.

Mythic and Angel progression

Rank	Generic choice	Angel choice or priority
1	Last Stand	Survive the first boss burst
2	Master Shapeshifter	Strength, Dexterity and transformation scaling
3	Second Mystery: Battle	Select Angel here and merge the Oracle/Angel spellbook
4	Mythic Improved Critical: Greataxe	Improve the 2H melee threat range
5	Abundant Smite	More reliable boss smites
6	Mythic Power Attack	Convert the high Strength into damage

Rank	Generic choice	Angel choice or priority
7	Enduring Spells	Long-duration Angel and Oracle buffs
8	Mythic Weapon Focus: Greataxe	Accuracy for the melee shell
9	Greater Enduring Spells	Make the defensive package last through the day
10	Favorite Metamagic: Extend	Keep the full Angel/Oracle buff package running all day

Spell priorities

- **Long-duration buffs:** Shield of Faith, Resist Energy Communal, Death Ward, Freedom of Movement, True Seeing Communal, Greater Angelic Aspect, Mind Blank and Legendary Proportions.
- **Control and support:** Greater Dispel Magic, Prayer, Frightful Aspect, Heal, Greater Restoration and Mass Heal.
- **Angel offense:** Bolt of Justice for a single target, Storm of Justice for groups, then the strongest available Angel damage spell from the merged book. Use Sword of Heaven before entering the encounter.

How to play

Before combat, let the BFT and Cleric apply the communal package, then cast Guarded Hearth when the encounter justifies it. Put Sword of Heaven and the long-duration Angel defenses up before initiative. On the opening turn, remove a boss defense with Greater Dispel if necessary, then cast Bolt/Storm of Justice. Use Quickened Heal or Greater Dispel only when it preserves the main Angel action. Keep healing and condition removal for emergencies; do not spend the first round on small heals while the primary threat is alive.

Recommended party

1. Angel Oracle above.
2. Inciter Skald 20 for the martial multiplier.
3. Brown-Fur Transmuter 20 for shared size, Dexterity and weapon buffs.
4. Cleric 20 for Guarded Hearth and communal defenses.
5. Mutation Warrior 19 / Demonslayer Ranger 1 as the full-BAB front line.
6. Stigmatized Witch 20 for Evil Eye, Protective Luck and Cackle.

2. Lich caster - 9.8/10 SS

Final build

Stigmatized Witch 10 / Loremaster 9 / Crossblooded Sorcerer 1 / Lich MR10

This is the strongest offensive caster package in the retained list. The merged Lich book supplies Corrupt Magic, Exsanguinate, Negative Eruption and high-end control while the Witch/Loremaster chassis supplies defenses, metamagic and off-list spell access.

Creation

Field	Choice
Race	Kindred Half-Elf
Alignment	Lawful Evil
Background	Scholar - Arcane
Patron	Shadow
Curse	Plagued
Starting stats	STR 7, DEX 12, CON 14, INT 14, WIS 10, CHA 20
Level-ups	Put every normal increase into CHA
Skills	Max Knowledge (Arcana), Knowledge (World), Use Magic Device, Persuasion and Spellcraft
Bloodlines	Undead + Fey for the one-level Crossblooded Sorcerer dip

Class order and feats

Character level	Class	Key choice
1-8	Stigmatized Witch 1-8	Protective Luck, Selective Spell, Cackle, Skill Focus: Knowledge (World) and Fortune
9-13	Loremaster 1-5	Spell Focus: Conjuration and off-list spell secrets such as Barkskin or Greater Dispel
14	Crossblooded Sorcerer 1	Spell Focus: Evocation; Undead + Fey bloodlines
15-16	Loremaster 6-7	Greater Spell Focus: Evocation and another high-value spell secret
17	Stigmatized Witch 9	Spell Focus: Necromancy
18-19	Loremaster 8-9	Greater Spell Focus: Necromancy and final spell secrets
20	Stigmatized Witch 10	Beast's Gift

Core feats are **Spell Focus: Necromancy**, **Greater Spell Focus: Necromancy**, **Spell Penetration**, **Greater Spell Penetration**, **Selective Spell**, **Bolster Spell**, **Heighten Spell** and **Quicken Spell**. Keep one defensive feat slot for Improved Initiative, Iron Will or Toughness according to the current save profile.

Mythic and Lich progression

Rank	Generic choice	Lich choice or priority
1	Abundant Casting	More merged-book casts
2	Expanded Arsenal: Enchantment	Open the save-based control package
3	Improved Abundant Casting	Select Lich and merge the Witch/Lich spellbook
4	Mythic Spell Penetration	Caster-level and resistance checks
5	Last Stand	Survive the first boss burst
6	Sorcerous Reflex	Two-action opening on the hardest encounter
7	Greater Abundant Casting	Keep the merged book online all day
8	Mythic Spell Focus: Conjuration	Improve the main save/DC line
9	Favorite Metamagic: Selective	Selective control without friendly-fire
10	Mythic Spell Focus: Evocation	Finish the high-damage spell package

Spell priorities

- **Defenses:** Mage Armor, Shield, Mirror Image, Displacement, Greater Invisibility, Mind Blank, True Seeing, Protection from Spells and Foresight.
- **Debuff opening:** Greater Dispel Magic or **Corrupt Magic** on the boss. Corrupt Magic is the default first action when the target has layered buffs.
- **Single target:** Exsanguinate, Feast of Blood, Siphon Life and the strongest available save-based Lich spell.
- **Groups:** Negative Eruption, Domain of Hungry Flesh and selective control. Use Selective metamagic so the party can remain in the area.
- **Utility:** Repurpose only when creating an undead ally matters; do not waste the first round on small healing or low-impact summons.

How to play

Pre-buff before entering, especially Mind Blank, True Seeing, Greater Invisibility and the communal defense package. Open on the boss with Corrupt Magic, then cast Exsanguinate or another high-impact Lich spell. Against groups, place Selective Hungry Flesh or Negative Eruption after the main resistance/dispel check. Keep a Quicken defensive spell or Displacement available. The Lich is powerful because its merged book removes defensive layers and then converts the opening into negative-energy damage; it is not a front-line melee caster.

Recommended party

1. Lich caster above.

2. Inciter Skald 20 for physical-party pressure and dispels.
3. Brown-Fur Transmuter 20 for shared transformations.
4. Cleric 20 for Guarded Hearth, Death Ward and healing.
5. Sable Company Marine 1 / Paladin 13 / Sohei 1 / Mutation Warrior 5 as the mounted front line.
6. Kinetic Sharpshooter 20 as the independent ranged finisher.

3. Kinetic Sharpshooter - 9.7/10 SS

Final build

Kinetic Sharpshooter 20 / Trickster MR10, using a **Heavy Crossbow**.

Charged Ammunition uses the equipped ranged weapon's attack profile and critical profile, but normally delivers only one kinetic blast per round. Weapon Focus and Improved Critical must name the Heavy Crossbow; Kinetic Blast versions do not replace the weapon attack. Blue Flame targets Touch AC and checks Spell Resistance; Air is the physical-blast backup.

Core progression

Level	Feat or feature
1	Point-Blank Shot; Human bonus Precise Shot; Fire; Charged Ammunition
3	Weapon Focus: Heavy Crossbow; Kinetic Quiver
5	Spell Penetration; Empowered Metakinesis
7	Deadly Aim; Fire again to unlock Blue Flame
9	Greater Spell Penetration; Maximized Metakinesis
11	Improved Critical: Heavy Crossbow; Rending Arrows
13	Improved Improved Critical: Heavy Crossbow after Perception II; Honed Infusion
15	Improved Improved Improved Critical: Heavy Crossbow; Expanded Element: Air
17	Improved Precise Shot; Pure-Flame
19	Improved Initiative; Chain Arrows; Metakinetic Master: Empowered
20	Celerity; Critical Overdrive; Infusion Specialization 6

Put normal level-up points into DEX. Max Perception, Stealth, Use Magic Device and Persuasion. Use Ascendant Element: Fire, Last Stand, Over-Infused Blasts only when the current patch accepts the two-substance interaction, and the Trickster Perception chain at MR3-4.

Trickster sequence

Take Perception I at MR3, Perception II at MR4, then Knowledge (World) I/II/III and Persuasion I/II/III as the available Trickster slots permit. Trick Fate arrives at Trickster MR9. It is a three-round boss button; it does not remove concealment miss chance, Spell Resistance or Fortification.

Combat routine

- No SR: **Blue Flame + Rending Arrows**.
- High SR: **Blue Flame + Pure-Flame**.
- Cluster: unaltered Blue Flame + Chain Arrows.
- Create Kinetic Quiver with 1 Burn and refresh it when charges run out.
- Use Empowered as the default single-blast metakinesis. Use Quicken only when the current combat log proves that it creates a second Charged Ammunition blast.
- Do not expect Rapid Shot, Manyshot or Vital Strike to create extra KSS blasts.

Recommended party

1. KSS 20 / Trickster MR10.

2. Inciter Skald 20 for shared sneak dice, Lethal Stance and Beast Totem.
3. Brown-Fur Transmuter 20 for Greater Magic Weapon, Haste and shared transformations.
4. Cleric 20 for Guarded Hearth, True Seeing, Death Ward and Freedom of Movement.
5. Mutation Warrior 19 / Demonslayer Ranger 1 for a full-BAB flanking body.
6. Witch 20 or Oracle 20 for hexes, healing and condition removal.

4. Trickster Sword Saint - 9.7/10 SS

Final build

Sword Saint 20 / Trickster MR10, using a two-handed **Bardiche**.

Dimension Strike converts the full attack into Touch attacks for the round. Trickster Perception II supplies the extra critical chain, while Arcane Pool, Prescient Attack and Arcane Accuracy solve the boss accuracy problem.

Creation and class plan

Field	Choice
Race	Human
Alignment	Chaotic Neutral
Background	Pickpocket
Stats	STR 18, DEX 12, CON 14, INT 16, WIS 8, CHA 7
Level-ups	Put every normal increase into STR
Skills	Athletics, Knowledge (Arcana), Knowledge (World), Use Magic Device and Perception
Weapon	Bardiche; stay unarmored and use Canny Defense

Take **Power Attack**, **Cleave**, **Cleaving Finish**, **Combat Reflexes**, **Great Cleave**, **Improved Critical: Bardiche**, **Outflank**, **Weapon Specialization: Bardiche**, then the Trickster Improved Critical chain and Improved Initiative. Do not waste the short feat budget on Shatter Defenses if the critical chain is incomplete.

Magus arcana and mythic sequence

Level/rank	Choice
Magus 3	Arcane Accuracy
Magus 6	Enduring Blade
Magus 9	Prescient Attack
Magus 12	Dimension Strike
Magus 15	Ghost Blade
Magus 18	Devoted Blade
MR1	Last Stand
MR2	Mythic Power Attack
MR3	Trickster; Knowledge (Arcana) I
MR4	Mythic Improved Critical: Bardiche; Perception I and II
MR5	Enduring Spells; Knowledge (World) I
MR6	Mythic Power Attack; Knowledge (World) II
MR7	Improved Initiative; Knowledge (World) III
MR8	Greater Enduring Spells; Reuse Magic Device
MR9	Ever Ready; Trick Fate becomes available
MR10	Mythic Weapon Specialization: Bardiche; Athletics III

Athletics III can raise the effective Base Attack Bonus toward the skill rank cap. Until it is online, Transformation supplies the missing martial accuracy for a hard encounter.

Spell priorities

- **Defense:** Shield, Mirror Image, Blur, Displacement, Greater Invisibility, Stoneskin, Vampiric Shadow Shield and True Seeing.
- **Accuracy:** True Strike, Arcane Accuracy, Prescient Attack and Dimension Strike. These use the same swift-action economy, so choose one for the round.
- **Bufs:** Haste, Greater Magic Weapon, Enlarge Person Mass and Transformation.
- **Utility:** Greater Dispel Magic, Dimension Door and Frigid Touch.

How to play

Before combat, cast Shield, Mirror Image, Displacement and the enduring buffs. Keep Perfect Strike and the critical toggle on. Against a boss, use **Arcane Pool -> Dimension Strike -> Trick Fate -> full attack** when Trick Fate is available. Dimension Strike is the preferred accuracy button because it targets Touch AC; Prescient Attack is the cheaper alternative when the target's Dexterity is the main defense. Do not enter melee without Mirror Image/Displacement active.

Recommended party

1. Sword Saint 20 / Trickster MR10.
2. Inciter Skald 20 for flanking, shared sneak dice and melee damage.
3. Brown-Fur Transmuter 20 for GMW, Haste and shared transformations.
4. Cleric 20 for Guarded Hearth, Death Ward and healing.
5. Sable Company Marine 1 / Paladin 13 / Sohei 1 / Mutation Warrior 5 as the second front line.
6. Kinetic Sharpshooter 20 for ranged pressure.

5. Inciter Skald - 9.6/10 SS support

Final build

Inciter Skald 20 / Trickster MR10.

This is the strongest retained Inciter because Trickster adds Perception critical support and Persuasion control while the Skald supplies the actual party engine.

Core progression

Level	Choice
1	Lingering Performance; Spell Focus: Enchantment
3	Greater Spell Focus: Enchantment; Lethal Stance
5	Spell Penetration
6	Lesser Beast Totem
7	Greater Spell Penetration
9	Dispel Focus; Canny Observer
11	Extra Rage Power: Beast Totem
12	Greater Beast Totem; Sneaky Tricks
13	Greater Dispel Focus
14	Advanced Rogue Talent: Dispelling Attack
15	Come and Get Me
17	Deadly Accuracy
18	Lethal Accuracy
19	Selective Spell; Petrifying Strike
20	Master Skald; Hit a Nerve

Use Kindred Half-Elf, high CHA, Pickpocket, and max Persuasion/Perception. The song shares sneak-attack dice, Lethal Stance and Beast Totem. Dispelling Attack is the boss tool; Petrifying Strike is the fallback when the current patch still has the old targeted-dispel bug.

Mythic and Trickster sequence

Take Last Stand, Abundant Casting, Improved Abundant Casting, Mythic Inspiration, Enforced Vigor, Mythic Spell Penetration, Favorite Metamagic: Selective, Mythic Spell Focus: Enchantment, Inspirational Leader and Rupture Restraints. Use Perception I/II for the melee critical line, then Persuasion I/II/III for control, with Knowledge (World) and Infuse Magic Device in the remaining slots.

Spells and combat loop

Prioritize Good Hope, Haste, Freedom of Movement, Greater Invisibility, Echolocation, Greater Heroism, Mass Cacophonous Call, Song of Discord, Mind Fog, Overwhelming Presence and Selective Confusion. Before combat, cast the long-duration package. In round one, activate **Raging Song** with Accept Rage only on the martial characters, then use Dispelling Attack or selective control. Let Sword Saint and Mutation Warrior full-attack while KSS stays at range. Turn the song off for caster rounds unless Hit a Nerve is confirmed to remove the patch's casting restriction.

Recommended party

1. Inciter Skald 20 / Trickster MR10.
2. Sword Saint 20 / Trickster MR10.
3. Brown-Fur Transmuter 20.
4. Cleric 20.
5. Mutation Warrior 19 / Demonslayer Ranger 1.
6. Kinetic Sharpshooter 20.

Fresh IE Legend fallback

Fresh Legend is selected at MR3 and cannot later become Angel, Lich or Trickster. If this is the mode being played, use only these two practical replacements:

System	Fresh Legend replacement
Ranged finisher	Kinetic Sharpshooter 20 / Mutation Warrior 20
Party engine	Inciter Skald 20 / Mutation Warrior 20

Do not label either replacement as an Angel, Lich or Trickster build. They retain only ordinary class levels and the two generic Mythic Hero choices available before the MR3 Legend selection.
